

# Polyurethane Spray Foam

## Spray-Applied Coating Unit

### INTRODUCTION

Polyurethane (PUR) spray application systems have been a trusted solution for protection of steel and erosion barriers for decades. Keymay's polyurethane spray equipment makes it easy to **exceed the level of protection as conventional installation, but more efficiently and safely.**

#### ADVANTAGES

- Reduces the environmental footprint and product waste.
- PUR spray foam adheres to the pipe and provides mechanical protection.
- PUR spray foam is much safer and effective than conventional sandbag methods.
- PUR spray foam provides erosion control that can outlast the service life of the pipeline.
- PUR spray foam prevents the pipe from moving and provides stability.
- Consistently achieves productivity and quality targets.

### RECOMMENDED USE

- Trench Breakers
- Mechanical Protection
- Integrity
- Rock Shield
- Pipe Support
- Insulation
- Pipeline Pads
- Void Fill
- Field Joint Foam Insulation

### KEYMAY PROVIDES A VARIETY OF OFFERINGS

- Crew configurations of all sizes, including Spray Technicians.
- Equipment rental packages.
- NACE Certified Inspectors
- Creation of project quality plans, ITPs, application procedures and reports.
- Laboratory testing plans

*Our outstanding workmanship and commitment to safety is evident in everything we do.*
